Subject: Data Trends News> 002

Data Trends are produced by the Research and Training Center for Children's Mental Health, Louis de la Parte Florida Mental Health Institute, University of South Florida, Tampa. Data Trends are funded by the Center for Mental Health Services, SAMHSA, U.S. Department of Health and Human Services. There are two Data Trends products: 1) Summaries, which detail recent, published articles on systems of care for children with emotional and behavioral disabilities and their families, and; 2) News briefs, which highlight related items or events of interest to the field.

The January issue of the American Journal of Orthopsychiatry, 70(1), contains a special section, "Racism and Mental Health." The articles are of interest although, unfortunately, none of them refer to cultural competency in children's mental health. The Table of Contents to 70(1) can be found at: <http://www.amerortho.org/xajocur.htm>
