From the Research and Training Center for Children's Mental Health, Tampa, Florida...

****************************************************

Using data from the 1995 and 1996 National Household Survey on Drug Abuse, the authors call for an improved service delivery system "to meet the treatment needs of adolescents with drug-related problems, especially young and female drug abusers, or those with comorbid psychiatric problems" (p. 200). (For information on the 2001 National Household Survey on Drug Abuse, go to: [http://www.samhsa.gov/oas/p0000016.htm](http://www.samhsa.gov/oas/p0000016.htm))

If you missed previous Data Trends publications, visit the main Data Trends page: [http://rtckids.fmhi.usf.edu/rtcpubs/datatrends/datatrendshp.htm](http://rtckids.fmhi.usf.edu/rtcpubs/datatrends/datatrendshp.htm)

Data Trends are produced by the Research and Training Center for Children's Mental Health, Louis de la Parte Florida Mental Health Institute, University of South Florida, Tampa. Data Trends are funded by the Center for Mental Health Services, SAMHSA, U.S. Department of Health and Human Services. There are two Data Trends products: 1) Summaries (ISSN# 1537-0399), which detail recent, published articles on systems of care for children with emotional and behavioral disabilities and their families, and; 2) News briefs (ISSN# 1537-0402), which highlight related items or events of interest to the field.
